About Us

Established in 1974 as Mandeep Industries, Ishman began its journey by manufacturing wiring harnesses for automotive lamps. Over the decades, the company has evolved into a dynamic and diversified group, with expertise in designing, developing, and manufacturing wiring harnesses for a broad range of automotive applications.

Late Shri Inderjit Singh Ahuja
Founder

Driven by the legacy of Late Shri Inderjit Singh Ahuja, our growth has been guided by an unwavering commitment to delivering cost-effective, zero-defect products—on time, every time.

In 2008, the group expanded with the launch of Ishman Autoelectric Pvt. Ltd., a dedicated facility in Manesar focused on specialized wiring harnesses. By 2015, the group had expanded into a cluster of five specialized companies:

To streamline operations and drive synergy, all companies were merged in 2019 under a unified entity—Ishman Components LLP.

Ishman Components LLP

Today, Ishman Components LLP operates from two strategically located plants in Delhi and Manesar, comprising three divisions:

Wiring Harness Division

Sheet Metal Components Division

Leadership

Mr. Harshpreet Singh Ahuja
Designated Partner

Over five decades of experience in manufacturing and customer-driven excellence.

Mr. Ishnoor Singh Ahuja
CDO

Company Overview

At Ishman Components LLP, we believe every connection drives the future. Our wiring harnesses power mobility across conventional and electric vehicles, ensuring reliability, safety, and innovation for OEMs and Tier-1 suppliers.

VISION

To become India's most trusted and system-driven wiring harness and automotive components manufacturer recognized for reliability, engineering excellence, and the ability to operate seamlessly on autopilot through robust processes, digital systems, and empowered teams. We aspire to be a preferred partner in the evolving EV and global mobility ecosystem by delivering safe, efficient, and future ready wiring solutions.

MISSION

Our mission is to deliver zero-defect, cost-effective, and on-time wiring harness solutions through disciplined processes, Lean practices, and continuous improvement. We are committed to strengthening our engineering capabilities, investing in digital transformation, and building an organization that consistently exceeds customer expectations in quality, service, and innovation.

CORE VALUE

Unwavering Customer Commitment

We stand by our customers at all times with unconditional support, ensuring dependable service, transparent communication, and solutions tailored to their needs.

Do-or-Die Approach to Challenges

Every challenge is an opportunity. We approach problems with resilience, accountability, and a mindset to conquer every obstacle without compromise.

Integrity & Transparency

We uphold the highest standards of honesty and openness in every action, decision, and process, building trust within our teams, with partners, and with customers.

Message From The Director

To bring happiness and satisfaction to everyone associated with us — customers, employees, and partners.

We envision Ishman Components LLP as a reputed, system-driven Wiring Harness manufacturing organization, operating seamlessly with robust processes, disciplined execution, and a strong growth-driven approach.

Our aim is to establish Ishman Components LLP as a trusted and respected name in the industry, known for quality, reliability, and commitment, while exploring opportunities for international expansion and exports.

Mr. Harshpreet Singh Ahuja

Designated Partner
Ishman Components LLP

Industry Segments Served

At Ishman Components LLP, we provide harness solutions for a wide range of automotive segments.

Passenger Vehicles

Dashboard, infotainment, lighting, and center locking harnesses

Commercial Vehicles

Engine, cabin, trailer, and bus body harnesses

Special Purpose Vehicles

Ambulance, tractor, fire truck, and defense vehicle harnesses

Heavy Vehicles

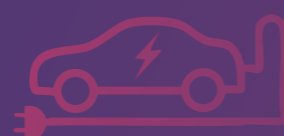

Truck, trailer, and commercial vehicle harness assemblies

Two & Three-Wheelers

Main harness, lighting, and EV conversion harnesses

Electric Vehicles

Battery, motor, charging, and auxiliary harnesses

Farm & Agro Equipment

Tractor, harvester, and agricultural implement harnesses

Construction Equipment

Excavator, loader, and heavy machinery wiring solutions

Product Portfolio

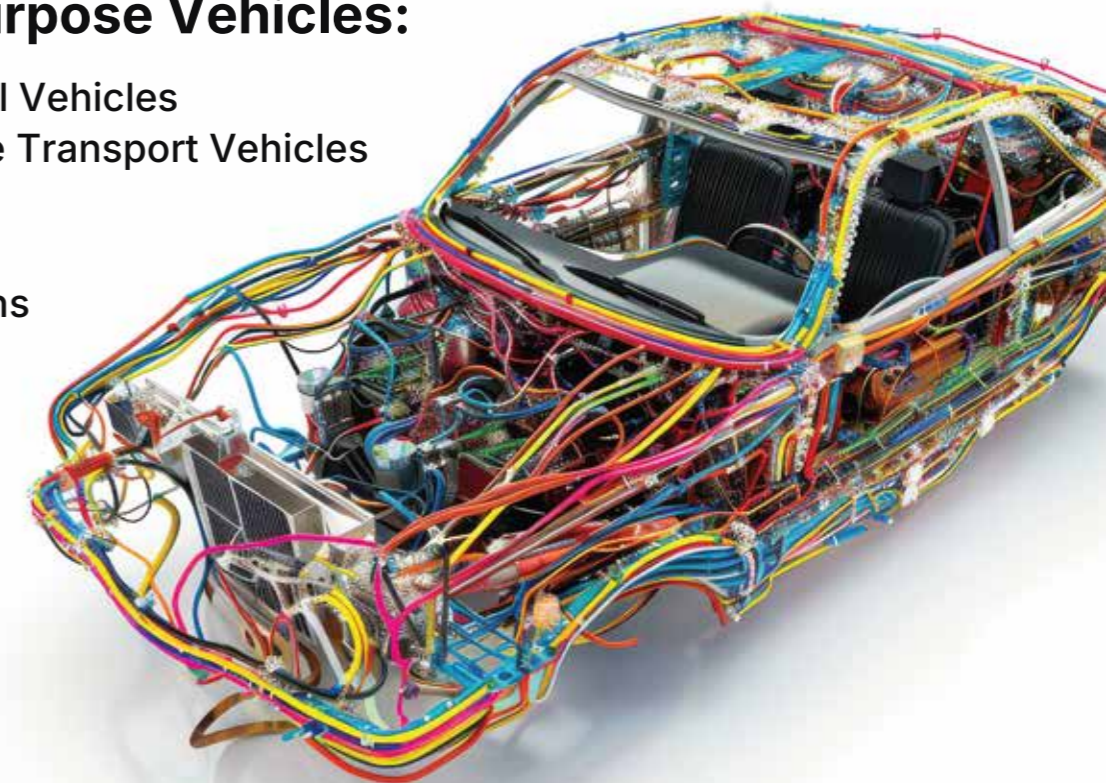

At Ishman Components LLP, we offer a comprehensive range of Wiring Harness Solutions tailored to meet the needs of diverse vehicle segments. Our specialized offerings include:

Wiring Harnesses for:

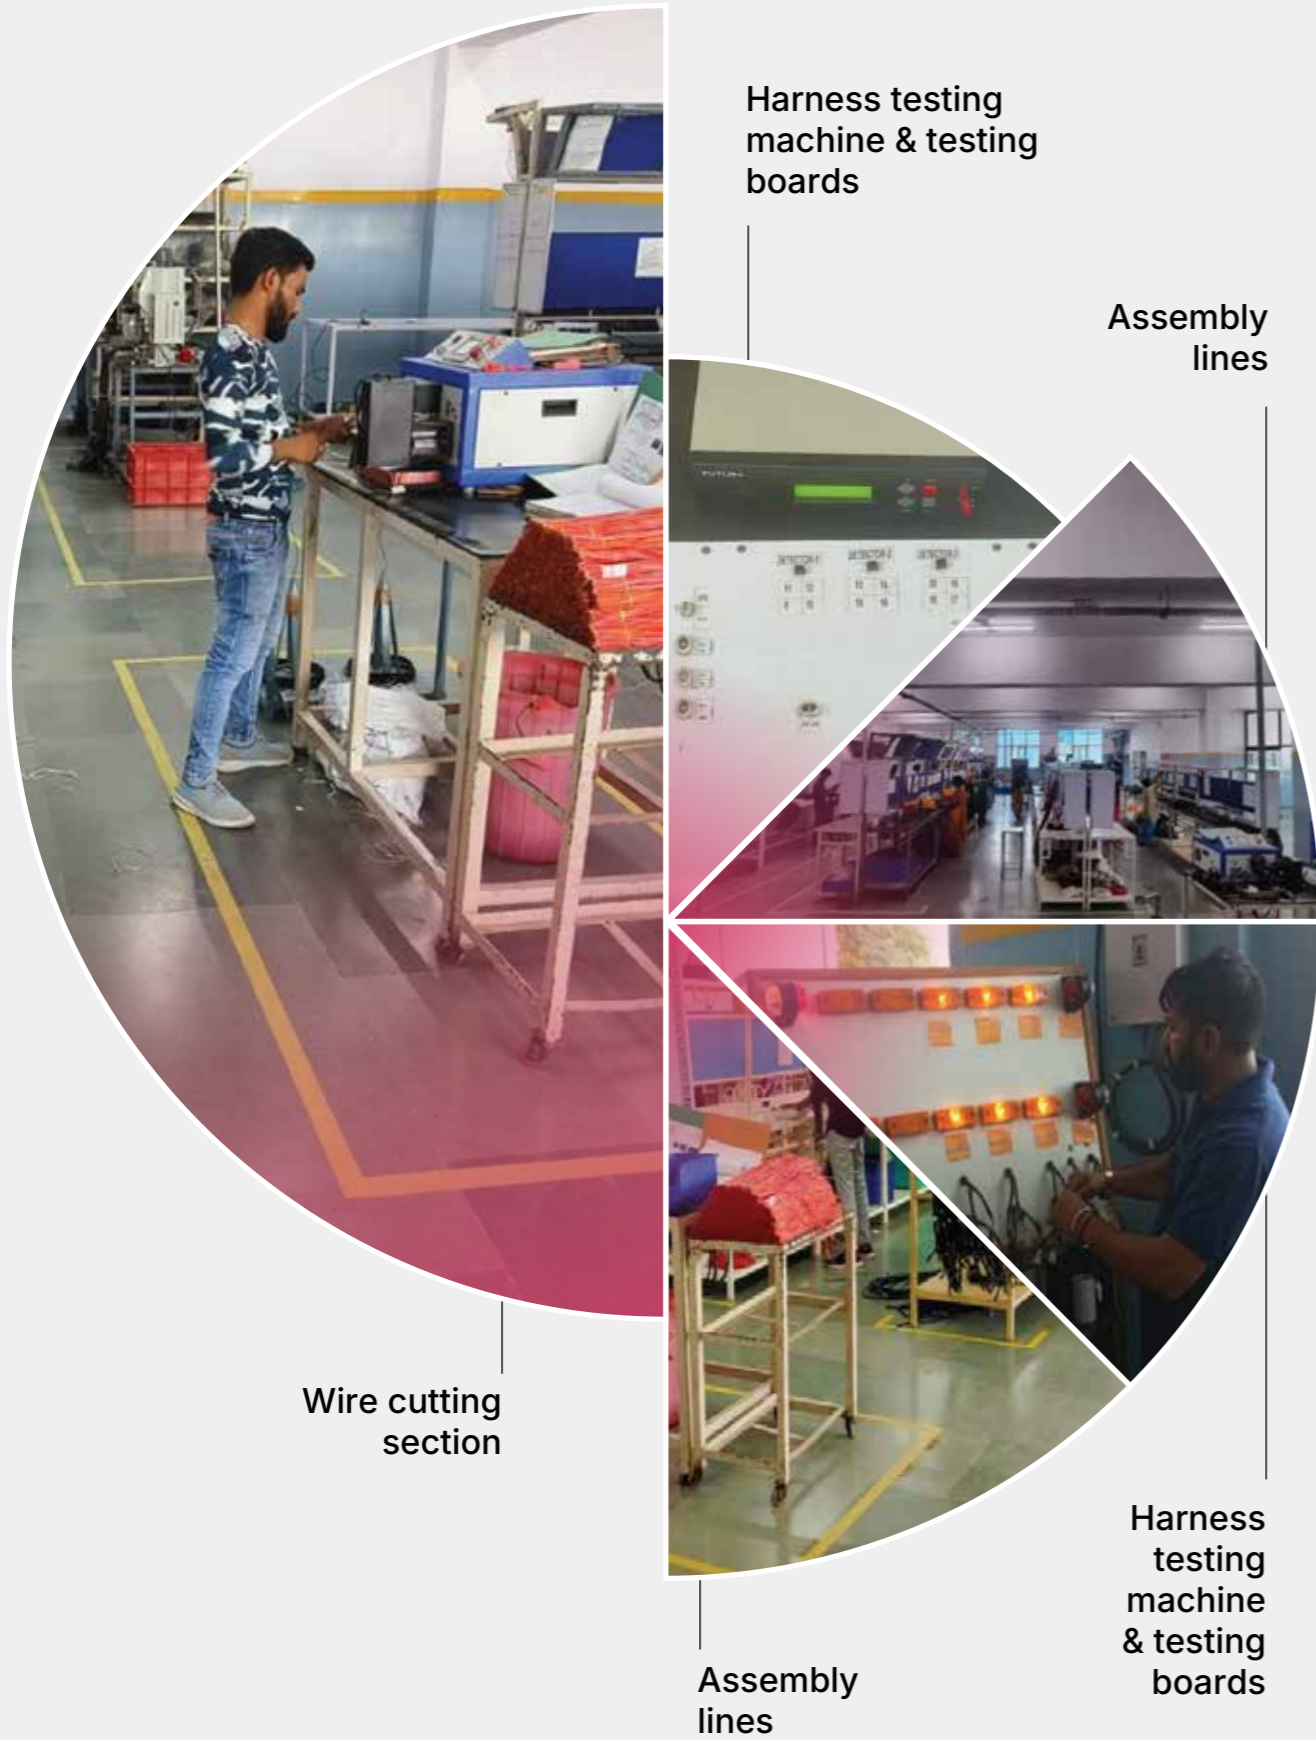

- Bus Body Segment (Tata, SML Isuzu, Eicher)
- Tipper & Trailer Segment (Tata, SML Isuzu)
- Tractor Harness (Kartar Agro, Preet Tractor)
- Ambulance Segment
- Automotive Light Segment (Tractor Lights – Tail Light, Head Light, etc.)
- Car Central Locking Systems
- Power Windows
- E-Rickshaw Segment (Electric Vehicle)
- Construction Equipment (LuiGong)

Special Purpose Vehicles:

- Bomb Disposal Vehicles
- Defence Force Transport Vehicles
- Prison Vans
- Police Vans
- Veterinary Vans

**Our
Manufacturing
Unit at Manesar**

Why Choose Ishman Components LLP?

Strong R&D Capability

Vehicle specific custom wiring harness solutions.

Advanced Automation

Efficient, high-speed, and error-proof production lines.

Certified Quality Systems

ISO-compliant processes ensure global standards.

Optimized Costing

Quality without compromise at competitive pricing.

Responsive Support

Dedicated customer service and technical assistance.

End-to-End Traceability

Full documentation and product traceability.

Capability & Differentiation Portfolio

At Ishman Components LLP, our strength lies in the integration of engineering capability, digital systems, disciplined manufacturing, and customer-centric reliability. This combination makes us one of the most dependable harness partners in India's MSME ecosystem.

THE 8 PILLARS OF OUR EXCELLENCE

IMPACT SUMMARY

- Reliable Partner for OEM/ODM Projects
- Digitally Empowered Processes
- Consistent, Scalable Supply Capability
- Zero-Compromise Quality Philosophy

Digital Transformation Journey

At Ishman Components LLP, digitalization is not an initiative it is a cultural shift that empowers every process, every department, and every connection we build. In an industry where most MSMEs still rely on manual systems, we have transformed our organization into a data-driven, technology-enabled manufacturing unit. Our digital journey strengthens quality, ensures consistency, and enhances customer responsiveness making us one of the most technologically advanced wiring harness manufacturers in the MSME segment.

DIGITAL MIS & LIVE DASHBOARDS

Real-time visibility across production, quality, PPC & inventory.

- Automated data flow between departments
- Zero manual follow-ups
- Instant decision-making

Outcome: Faster actions, fewer delays, improved system discipline.

COMPLETE RECORD DIGITALIZATION

Every QC record, inspection sheet, and approval is digitized.

- No paper dependency
- Instant audit retrieval
- Error-free documentation

Outcome: Stronger compliance & easy traceability.

AUTOMATED QUALITY & TRACEABILITY

End-to-end traceability across RM, process & FG.

- Digital QC gates
- Poka-Yoke alerts
- Automated rejection tracking

Outcome: <0.05% rejection rate and predictable quality.

CUSTOM-BUILT ERP & WORKFLOWS

Tailor-made ERP aligned to harness manufacturing flow.

- RM management
- Job-card lifecycle
- PPC planning
- Quality workflows

Outcome: Seamless execution & process reliability.

LEAN x DIGITAL INTEGRATION

Digital enablers for 5S, Kaizen, and Lean systems.

- Digital SOPs
- Root cause tracking
- Waste reduction insights

Outcome: Higher productivity and reduced operational losses.

INDUSTRY 4.0 VISION

Building a future-ready plant.

- IoT-enabled machines
- Digital production logs
- Cloud analytics
- Digital twin readiness

Outcome: Scalable systems for EV & export markets.

THE ISHMAN DIGITAL ADVANTAGE

Why it Matters to OEMs & Tier-1 Customers:

Faster communication & fewer delays

Strong audit readiness

Live visibility of production & quality

Predictable supply reliability

100% documentation accuracy

System-driven performance, not person-dependent

Growth Strategy

Delivering Scalable, System-Driven, Future-Ready Manufacturing Ishman Components LLP is building a long-term roadmap centered around technology, capability expansion, and manufacturing excellence. Our growth strategy focuses on:

Capacity Expansion & Process Automation

Increasing plant capacities at Manesar and Delhi
Adding automated crimping, cutting & testing lines
Strengthening inline error-proofing & SPC monitoring

Outcome: Consistent quality at higher volumes for OEM programs.

Technology & Digital Transformation

Fully digital MIS for production, QC, PPC, and inventory
Traceability for every job card and component
Moving toward IoT-based machine monitoring

Outcome: Data-backed reliability and compliance.

Strengthening R&D & New Product Development

Faster prototyping with in-house CAD + reverse engineering
Dedicated PPAP documentation and sample submission team
EV-specific harness development capabilities

Outcome: Faster launches, custom engineering, and reduced development cycles.

EV & Export Market Readiness

Developing EV-specific high-voltage harness solutions
Upgrading quality systems toward IATF 16949
Targeting export approvals across new geographies

Outcome: Future-ready capability aligned with global mobility trends.

Deepening OEM Partnerships

Program-based manufacturing planning
Dedicated customer support cells
Strategic long-term supply collaborations

Outcome: Higher reliability, lower risk, stronger business continuity.

Operational Excellence & Lean Management

Continuous improvement through Kaizen and 5S
Lean production systems reducing waste & cost
Employee capability building and leadership training

Outcome: Predictable output, stable quality, competitive pricing.

Certifications & Compliance

ISO ACHIEVED

Certified quality management system ensuring process discipline, customer satisfaction, and consistent product excellence.

IATF IN PROGRESS

We are actively aligning our systems with the automotive industry's most stringent standard.

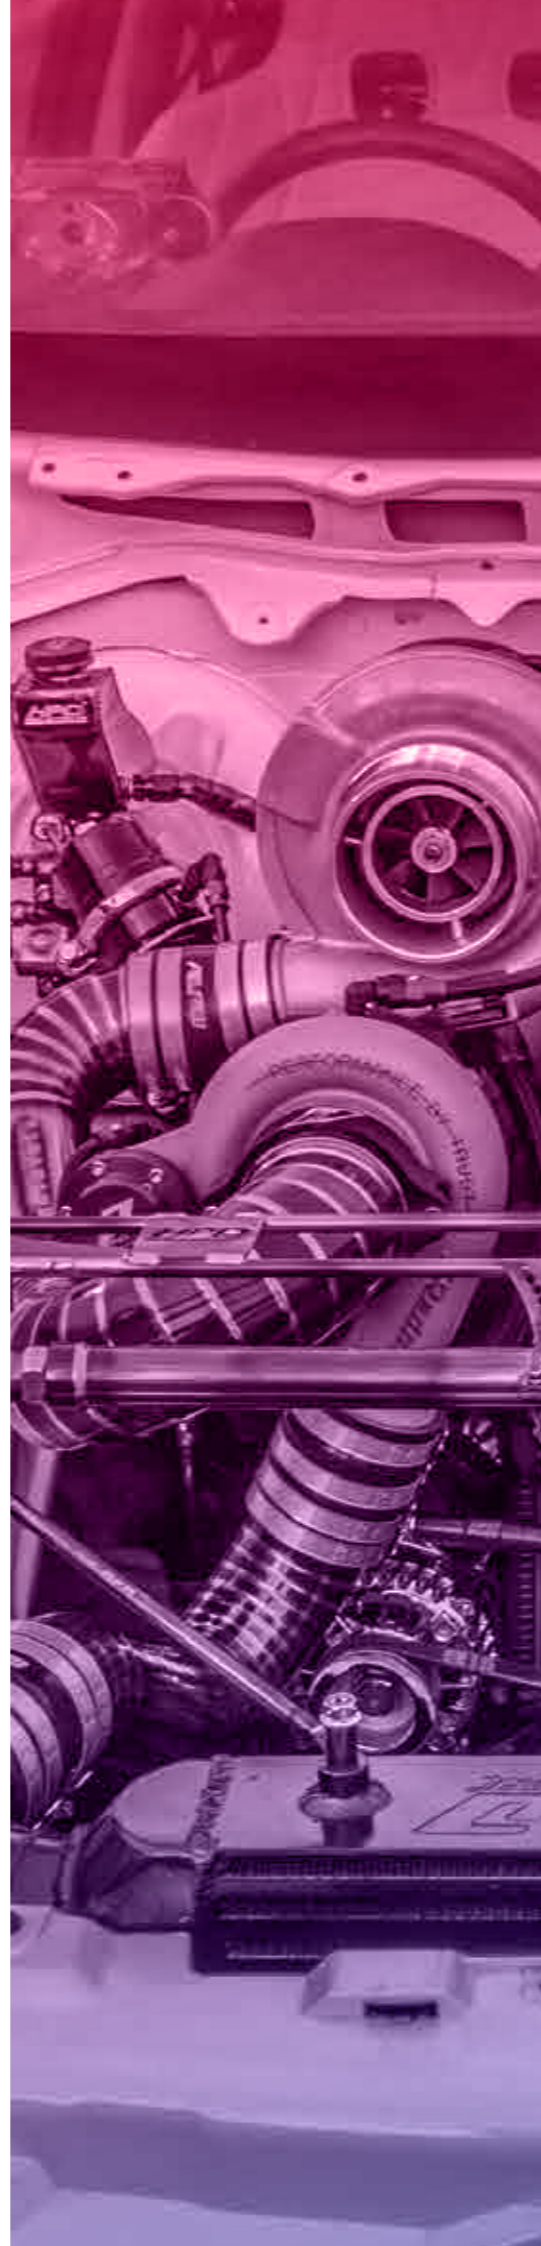

BUYER-FOCUSED

Certifications that ensure every harness is tested, traceable, and globally accepted.

FUTURE-READY

Aligned with evolving global automotive standards, enabling exports and supporting EV adoption.

2019 > 2026

Our Esteemed Customers
